GUANGXI NORMAL UNIVERSITY

Destiny Brings Us to Guilin Together- A Letter to International Alumni of Guangxi Normal University (GXNU)

How time flies! Again, the fragrance of laurels
shines

Wangcheng, Yucai and Yanshan campus
are filled with talents

GXNUers from all over the world
are brought to Guilin together by destiny
then our friendship lasts for a lifetime

A unique memory with a special feeling that you
leave at a young age

An experience at GXNU, a lifelong alumnus of GXNU

Though you stay afar, our love for you is unchangeable

Alma mater wishes you to fulfill your ambition

Alma mater hopes you to come back constantly

Thank you for getting through with us for 90 years

2020 witnessed the outbreak of COVID-19, which performed a profound influence on international graduates of the class of 2020. Unlike the usual years, they didn't have the opportunity to shed tears, hug and bade farewell to their classmates, friends and teachers but only meet with each other via the internet even on the commencement. On the commencement, President He Zubin had made a promise: I welcome all of you to come back for any future commencement as long as you want to, and I will turn the tassel for you by myself.

The virus is cruel but the world is full of love. After the outbreak of COVID-19, we have been battling against such a major infectious disease by solidarity and mutual assistance. International students and alumni of GXNU have been paying close attention to the pandemic in China. Nhu Thi Lan Phuong, a Vietnamese doctor of the class of 2017, contacted our university and donated RMB 3,500 to Wuhan city. Later, her parents knew about

their daughter's donation and they felt delighted and proud of her kindness. Therefore, they donated RMB 5,000 to Hubei province via the Alumni Association of GXNU. Nguyen Thi Huyen Trang, a Vietnamese student of class of 2016, sent 500 face masks to our university to express her caring and support for her alma mater.

As the Chinese saying goes: Though we stay afar, our hearts always stick together. When pandemic prevention and control in China goes better and better, the situation outside China gets worst. GXNU contacted overseas partners and Confucius Institutes positively to know about the local pandemic situation and their need for pandemic prevention and control, and provided help and support to overseas partners and international alumni within our scope.

We always believe that all sufferings will be overcome and a bright future is waiting for us.

On October 12th, 2022, GXNU will celebrate her 90th birthday. Let's expect the glorious moment

of alma mater together. We warmly welcome all international alumni to share their happiness, recall their friendships and turn a new page with us.

To serve our international alumni better, alma mater sincerely invites you to finish international alumni information registration so as to keep a long-term connection.

We promise that your personal information will be treated confidentially and used only by Alumni Association of GXNU and Office of International Students Affairs. Thank you for your support and help!
